## EXPERIENCE

### Flipkart.com (Mar 2015 - Present)

Founded in 2007, Flipkart is the poster boy of Indian e-commerce. It is the largest e-retailer in India. It is also counted among the most valuable tech startups in the world.

#### Software Development Engineer-2, Advertising Platform

- Developing backend-as-a-service (BAAS) to power the platform.

### Goibibo.com (Jan 2011 - Feb 2015)

Goibibo is an online travel portal founded in 2009. It has rapidly closed ranks to become the second biggest in India. Simplicity backed by cutting-edge technology is its USP.

#### Team Lead , Data Platform

- Conceptualized a data platform from scratch
- Developed Swift, a real-time monitoring/alert and stats platform.
- Developed Gandalf, an in-house BI tool
- Set up a scalable log creation/archival/retrieval and processing platform.
- Developed profiling and ranking algorithms for customer segmentation and smart targeting
- Conceptualized frameworks for automated data processing, minimizing human involvement in various branches like finance etc.

### Tavant Technologies (July 2010 - Jan 2011)

Tavant is an IT solutions and services provider founded in 2000. Constantly ranked among India's best companies to work for, its clients include Electronic Arts, TiVo, MLB AM, New York Times etc.

#### Software Engineer, R&D division

- Added Lightstreamer Server and Adobe Flex support to Jakarta Jmeter.
